<b>Activity 2 - Acquiring and using scientific knowledge to develop the indicators of litter impact at the (sub)regional and the whole MSFD spatial scale (CNRS, Gaëlle Darmon, Claude Miaud)</b>		
<i>Task 2.1: Establishment of a state-of-the-art on the biological constraints which can influence the indicators' criteria</i>		
<i>Task 2.2: Pilot study for the Indicator 2 "Entanglement with debris by marine biota" and the Indicator 3 "Micro-debris ingestion by marine biota"</i>		
<i>Task 2.3: Improvement and standardization of the monitoring for the Indicator 10DC3</i>		
<i>Task 2.4: Establishment of common databases in order to gather already known and newly collected data for indicator 1 (provided in the frame of the Activities 3 and 4)</i>		
<i>Task 2.5: Evaluation and/or revision of GES initial assessment, distance to GES and indicator criteria</i>		
<i>Task 2.6: Evaluation of the influence of practical restoration measures implemented in pilot areas on the evaluated distance to the target of GES(s)</i>

D2.6	Report on set of procedures for a standard monitoring using the Indicator "Debris ingestion by sea turtles"	<i>Can be asked to coordinator</i>
D2.7	<b>Final Report on set of procedures for a standard monitoring using the Indicator "Debris ingestion by sea turtles"</b>	<a href="#">INDICIT – Final Report – Aug 2019</a>
D2.8	Establishment of common databases	<i>Can be asked to coordinator</i>
D2.9	<b>Final common databases (Raw data restricted under sharing agreements)</b>	<i>Can be asked to coordinator</i>
<b>Activity 3 - Implementation of the indicator of litter ingestion in the RSC OSPAR/Macaronesia (ULPGC, Ana Liria Loza)</b>		
<i>Task 3.1: Identification of the local stakeholders to be mobilized in France, Spain and Portugal</i>		
<i>Task 3.2: Local training on the established protocols for data collection to the identified stakeholders</i>		
<i>Task 3.3: Sharing of already available data in the common databases</i>		
<i>Task 3.4: Collection of new data and uploading to the common databases</i>		
<i>Task 3.5: Validation and implementation of the GES (baseline or trends) and indicator s' criteria with the stakeholders at the RSC scale, and evaluation of each Member states/sub-regions' distance to the target of GES</i>

D3.4	Short progress Report 3 on Activity 3	<i>Can be asked to coordinator</i>
D3.5	Short progress Report 4 on Activity 3	<i>Can be asked to coordinator</i>
D3.6	Report on the validated GES and clarified indicator criteria for the standard monitoring at the RSC scale	<i>Can be asked to coordinator</i>
D3.7	<b>Final report on the validated GES and clarified indicator criteria for the standard monitoring at the RSC scale</b>	<a href="#">INDICIT – Final Report – Aug 2019</a>
D3.8	List of identified stakeholders	<i>Can be asked to coordinator</i>
D3.9	Final list of identified stakeholders (restricted under sharing agreements)	<i>Can be asked to coordinator</i>
D3.10	List of evaluation indicators of the implementation of the monitoring program	<i>Can be asked to coordinator</i>
<b>Activity 4 - Implementation of the indicator of litter ingestion in UNEP/MAP –EcAp process (Barcelona Convention) (ISPRA, Marco Matiddi, Cecilia Silvestri)</b>		
<i>Task 4.1: Identification of the local stakeholders to be mobilized in Italy, Greece, France and Spain</i>		
<i>Task 4.2: Local training on the established protocols for data collection to the identified stakeholders</i>		
<i>Task 4.3: Sharing of already available data in the common databases</i>		
<i>Task 4.4: Collection of new data and uploading to the common databases</i>		
<i>Task 4.5: Validation and implementation of the GES (baseline or trends) and indicator s' criteria with the stakeholders at the RSC scale, and evaluation of each Member states/sub-regions' distance to the target of GES</i>
